VOL. XXXI.

STANFORD, KY. FRIDAY, NOVEMBER 13, 1903. 8 A.M.

NO. 74

MR. A. C. DUNN

Of this place, who is tipped for Doctor of the House. He is a splendid democrat and no man in the county is due more credit for Lincoln's going "right" on Nov 3rd than he is. He has good backing for the office he seeks and here's hoping he'll get there in the Goebel campaign of 1904. Mr. Dunn rendered valuable service to his party and county. He went through the mountains of Eastern Kentucky with Gov. Goebel on his speaking tour and had the martyred governor lived he would have given his loyal support and friend a good birth.

#### The Dead Sea.

Scientific observation justifies the estimate that a daily average of 6,500 tons of water is received into the Dead sea from the Jordan and other sources during the year. During the rainy season the amount is very much greater; during the dry season it is, of course, very much less; but this average will be maintained year after year. There is no outlet, and the level is kept down by evaporation only, which is very rapid because of the intense heat, the dry atmosphere and the dry winds which are constantly blowing down the gorge between the mountains. This evaporation causes a haze or mist to hang over the lake at all times, and when it is more rapid than usual heavy clouds form, and thunder storms sometimes rage with great violence in the pocket between the cliffs, even in the dry season. A flood of rain often falls upon the surface of the sea when the sun is shining, and the atmosphere is as dry as a bone half a mile from the shore. The mountains around the Dead sea are rarely seen with distinctness, because of this haze.

#### APPRECIATION.

I ask not for a kindly deed ye should My name applaud,  
Give me no formal thanks or flattery As a reward.  
These cannot satisfy, when I have sought with sweet delight,  
Through thy long absence, with a faithful heart,  
To do just right!  
When I have made thy wishes all my own, And gently thought  
That thou wouldest look approvingly on what  
My hands had wrought;  
I ask that thou appreciate, and if 'Tis fairly won,  
Grant me the blessing of a smile, and say,  
"It is well done!"  
—Mary A. Short.

#### Not A Sick Day Since.

"I was taken severely sick with kidney trouble. I tried all sorts of medicines, none of which relieved me. One day I saw an ad. of your Electric Litters and determined to try that. After taking a few doses I felt relieved, and soon thereafter was entirely cured, and have not been a sick day since. Neighbors of mine have been cured of Rheumatism, Neuralgia, Liver and Kidney troubles and General Debility." This is what H. F. Bass, of Franklin, N. C., writes. Only 50c at all Druggists.

Here is a remedy by which the worst fit of coughing can be checked in church or theatre: Pour about half a teaspoonful of good pure cologne into your handkerchief and hold this before your open mouth. Inhale a deep breath or two of the perfume. Impregnated air and the coughing attack will be quickly and agreeably nipped in the bud.

#### A Runaway Bicycle.

Terminated with an ugly cut on the leg of J. H. Orner, Franklin Grove, Ill. It developed a stubborn ulcer unyielding to doctors and remedies for four years. Then Bucklen's Arches Salve cured it. It's just as good for Burns, Scalds, Skin Eruptions and Piles, 25c at all Drugstores.

California produces more dollars worth of oranges than of gold: Oranges over \$15,000,000 and gold \$17,000,000.

#### BE FUNNY.

If your temper isn't funny  
And your disposition punny,  
If you can't be very funny,  
Be as funny as you can.

Do not cry a wet day wetter,  
Do not be a gloom begetter;  
Try to make this old world better—  
Be as funny as you can.

If your heart or tooth is aching,  
If you are not much pleasure-taking  
And you can't enjoy fun making.  
Be as funny as you can.

For the world neglects its sages,  
But for fun it gives good wages;  
Get a cinch upon the ages,  
Be as funny as you can.

—Chicago Record-Herald.

It is well known that the Moors are inveterate coffee drinkers, especially the merchants, who sit in their bazaars and drink coffee continually during the day. It has been noticed that invariably when these coffee drinkers reach the age of 40 or 45 their eyesight begins to fail, and by the time they get to be 50 years old they become blind. One is forcibly impressed by the number of blind men that are seen about the streets of the city of Fes, the capital of Morocco. It is invariably attributed to the excessive use of coffee, and the opinion has been confirmed by European physicians living there — Washington Star.

#### Disastrous Wrecks.

Carelessness is responsible for many a railway wreck and the same causes are making human wrecks of sufferers from Throat and Lung troubles. Just since the advent of Dr. King's New Discovery for Consumption, Coughs and Colds, even the worst cases can be cured, and hopeless resignation is no longer necessary. Mrs. Lois Clegg, of Dorchester, Mass., is one of many whose life was saved by Dr. King's New Discovery. This great remedy is guaranteed for all Throat and Lung diseases by all druggists. Prices 50c, and 25c. Trial bottles free.

Mr. Tightfist — And so you are the noble fellow who rescued my wife from in front of the trolley car at the risk of your life? Take this quarter, my heroic man, as an expression of our undying regard.

Mr. Rags — All right, boss. You know better I do what the woman's worth.

**CLIMATIC CURES.** — The influence of climatic conditions in the cure of consumption is very much overdrawn. The poor patient, and the rich patient, too, can do much better at home by proper attention to food digestion, and a regular use of German Syrup. Free expectoration in the morning is made certain by German Syrup, so is a good night's rest and the absence of that weakening cough and debilitating night sweat. Restless nights and the exhaustion due to coughing, the greatest danger and dread of the consumptive, can be prevented or stopped by taking German Syrup liberally and regularly. Should you be able to go to a warmer climate, you will find that of the thousands of consumptives there, the few who are benefited and regain strength are those who use German Syrup. Trial bottles 25c; regular size 75c. At all drugists:

#### LANCASTER.

The ladies of the W. C. T. U. will give a "candy pulling" at the "Rest Room" Saturday afternoon at 3 o'clock.

All are cordially invited to attend and assist in this worthy work.

We are glad to hear that Mr. and Mrs. Ike Dunn, of Lower Garrard, will

probably come to our town to reside.

They will make delightful additions socially and every other way to Lancaster.

The Lancaster High School foot ball team went over to Nicholasville to play the Threlkeld Select School.

Lancaster was defeated, but defeat coupled with courteous treatment is not so bad after all.

Hughes Aldridge, of this city, has purchased the tin shop and fixtures of J. T. Jones at Stanford. Mr. Aldridge is a good citizen and an experienced workman and a well versed Maccabee.

We regret to lose him.

It will be remodeled and will make a neat, comfortable little hotel. It will be furnished with the best accommodations for the traveling public.

The demand for land goes on apace.

There is not a day that there is not an exchange of town property for farms or some stranger looking for good land and willing to pay good prices.

The price per acre has never been better and this shows that Old Garrard is a good place to come to.

Rev. Wm. Barton, of Chicago, a well-known writer and Congregationalist, addressed the pupils of the Graded School here. There is never a person of note in town who is not invited by Prof. Mannix to speak to his pupils, and these advantages, if correctly used, will be of lasting good to those who bear.

To my surprise it removed all pain and soreness and the injured parts were soon healed." For sale by W. N. Craig.

AT a meeting of the defeated republican nominees of Louisville, with some of the republican leaders at the Galt House, it was decided to make a contest if the voters would raise \$10,000 with which to foot the bills. The whole business is the rankest kind of a bluff and the dollars to doughnuts that the meeting mentioned above will be the last and only one ever held.

THE Lexington Leader shows its lack of decency, to say nothing about sympathy, in its competitor's troubles. In fact it seems to have been as much delighted over the assault on Mr. W. P. Walton by a Lexington hoodlum as it was over Gov. Goebel's assassination. To hide such a publication and its force from editor to devil.

THE next Kentucky Legislature will have a democratic majority of 76 on joint ballot. In the last Assembly the democratic majority was 60. The next Senate will have a membership made up of 31 democrats and seven republicans, and the House will have 76 democrats and 24 republicans.

With only six unreported precincts Gov. Beckham's plurality over Belknap stands at 27,552. The missing precincts are all in Bell county. The figures are not the official count in all cases. The total vote for governor has reached 420,704.

A GOOD WOMAN GONE.—The funeral of Mrs. Eliza Beasley, brief mention of whose death was made Thursday, will take place tomorrow at 9 A. M. at the family home on Sutton street, Rev. F. W. Harrop officiating. Interment in the Maysville cemetery. Mrs. Beasley's maiden name was Fleming, and she was a native of Fleming county. Her mother's name was Madoox. Surviving are two children—Miss Nannie, of this city, and Mr. Ezekiel Beasley, of Stanford, the well-known postal clerk. Mrs. Beasley had long been a faithful member of the M. E. church, and was one of Maysville's true and devout christians.—Maysville Bulletin.

A WOMAN'S COMPLEXION.—It is rank foolishness to attempt to remove sallowness or greasiness of the skin by the use of cosmetics, or "local" treatment, as advocated by the "beauty doctors." The only safe and sure way that a woman can improve her complexion is by purifying and enriching the blood, which can only be accomplished by keeping the liver healthy and active. The liver is the seat of disease and blood pollution. Green's August Flower acts directly on the liver, cleanses and enriches the blood, purifies the complexion. It also cures constipation, biliousness, nervousness, and induces refreshing sleep. A single bottle of August Flower has been known to cure the most pronounced and distressing cases of dyspepsia and indigestion. New trial size bottle, 25 cents; regular size, 75 cents. At all druggists.

## "UNCLE ASHLEY" OWENS.

EAST BERNSTADT, Nov. 12.—I have been conducting a meeting at this place for eight days and was called last Monday afternoon to Livingston to preach the funeral of our old friend

Father Owens was one of our best citizens. He was 84 years old, and was born and lived almost all his life in Rockcastle county. He was elected jailer of his county in 1860 and served as such for eight years. He served his people as magistrate for four years, his town as police judge for six years and when he was a peace officer he was so faithful in the discharge of his official duties that he gained for himself name and fame that was a terror to the lawless. He never failed to get the criminal when he went after him.

He was a great friend to the Louisville & Nashville and did much valuable service for them, and several years ago that company gave him and his wife a free ticket to St. Louis and back. He did much service for Uncle Sam and for 20 years was assisted in hunting down moonshiners distilleries in Eastern Kentucky. He was a good friend of the Christian church. He never voted anything but the democratic ticket. He belonged to the Masonic fraternity and quite number of his Masonic brethren attended his funeral. We know that his dear heart broken wife has the strong arm of a brotherhood, 17,000 strong in Kentucky that will be ready to render her any assistance she may desire.

Bro. Owens was an elder in the Christian church but he had a warm and true friend in the writer and this accounts for him calling upon me to preach his funeral. I paid him a visit last Spring and he then told me he could not possibly remain in this world long and asked me to promise him, if it should be God's will, to preach his funeral when he died.

And about 24 hours before he breathed his last he called his children and friends to his side and said to them, "I am ready and willing to go; meet me in heaven. Let all my friends that look down into my casket and see my face for the last time say that Uncle Ashley Owens has gone to heaven."

We can now truthfully say that our country has lost a good citizen, Livingston one of its best friends, the church one of its most efficient workers, the six children that are left behind a good father and his widowed wife a good and kind husband.

A. J. PIKE.

GERMAN SYRUP.—We want to impress on our readers that Boeche's German Syrup is positively the only preparation on the market to-day that does relieve and cure consumption. It contains the specific, such as pure tar, extracts of gums, etc., which have been so highly endorsed for the cure of coughs, colds and consumption by the great medical concoctives. The consumptive, whether his disease is in the throat or lungs, must have rest at night, and be free from the spasms of dry and racking cough in the morning. The diseased parts want rest, healing and soothing treatment, and the patient needs fresh air, good food, etc. German Syrup will give free and easy expectoration in the morning with speedy and permanent relief. Small bottles, 25 cents; regular size, containing nearly four times as much, 75 cents. At all druggists.

New York City will attempt to induce Uncle Sam to pay it \$1,000,000 al leged to be due on a war claim.

## The Wonderful Sense of Smell.

How infinitely minute must be the  
particles that emanate from the object  
which the dog is tracking! Yet matter  
is extremely divisible. The tenth part  
of a grain of musk will continue for  
years to fill a room with its odoriferous  
particles, and at the end of that time  
will not be appreciably diminished in  
weight by the finest balance. A cubic  
inch of air rising from the flame of a  
Bunsen burner has been found to contain  
no fewer than 400,000 dust particles.

A drop of blood which might be suspended  
from the point of a needle  
contains about a million of red flat-  
tened corpuscles. Still, though matter  
is so marvelously divisible, the olfactory  
nerves are infinitely more sensitive.

Much has yet to be investigated with  
regard to the differentiation of the  
points in these nerves so that they may  
distinguish with such apparently in-  
credible accuracy; yet even the results  
in the sense of dogs show how mar-  
velously fine is their discriminating power.

Our sense of smell, unless in the  
trained chemist, is not even so acute as  
that of the semi-savage. The aborigines  
of Peru can, in the darkest night  
and in the thickest woods, distinguish  
respectively a white man, a Negro and  
one of their own race by the smell.

Much we have gained by civilization;  
but not without some loss to our bodily  
energies and senses. Man's recuperative  
power after an injury is in the inverse  
ratio to his social advancement.

Similarly he seems to become less  
acute and delicate in the sense of smell  
as he fares better and lives more com-  
fortably. The faithful dog puts him to  
shame—London Mall.

**MILLIONAIRE'S POOR STOMACH.**—The  
worn out stomach of the over fed mil-  
lionaire is often paraded in the public  
prints as a horrible example of the evils  
attendant on the possession of great  
wealth. But millionaires are not the  
only ones who are afflicted with bad  
stomachs. The proportion is far greater  
among the toilers. Dyspepsia and indi-  
gestion are rampant among these people,  
and they suffer far worse tortures than  
the millionaires unless they avail them-  
selves of a standard medicine like Queen's  
August Flower, which has been a favorite  
household remedy for all stomach troubles  
for over 35 years. August Flower  
removes the torpid liver, thus creating ap-  
petite and insuring perfect digestion. It  
tones and vitalizes the entire system and  
makes life worth living, no matter what  
your station. Trunk bottles 25c; regular
